SERIES

# SIMPLE OPERATION

## Record your ideas without pausing your train of thought.

Meetings are a meeting of minds - a place where everybody puts their heads together and great ideas are born. You don't want a complicated machine that will stop the flow of ideas. You want an easy-to-use tool that will work as quickly as your mind does. Enter the new series of Copyboards from PLUS. PLUS is the company that first brought you the Copyboard, and PLUS has been working constantly since then, developing ever better products for you. Here are the latest and greatest in creative meeting tools.

## Slim and light

Don't bring your meeting to the Copyboard, bring your Copyboard to the meeting. This new Copyboard is easy to move to the location of your choice.

### 40% thinner than previous boards

The PLUS Copyboard's slim design (only 72mm/2.8" thick) makes it easier to move around compared to other bulky boards.

72mm/2.8"

### Light enough for anybody to move

The board is also 22% lighter than previous boards, making it easy to move.

## Sliding sheet

When you run out of space, just slide the sheet with your hand and make more room. Carry on your writing without interrupting the flow of ideas.

### Easier to scroll... and you can scroll in either direction

You can scroll the sheet forward or backward with the touch of a hand. No more pausing your train of thought when you run out of space or need to see what you've written on the other side of the sheet.

### Discussion + writing = synergy

Writing is an invaluable element of dynamic discussions. Visual brainstorming allows you to organize your ideas, make connections and reinforces memories. The best discussions happen when everyone is giving their full attention, and with this new Copyboard everyone can do just that. And now you can be confident in the knowledge that everything you write is being saved for easy reference later.

# Make every stage of your meeting stress-free

From pre-meeting preparations to post-meeting follow-ups, PLUS Copyboards make it easy. The boards have a wealth of functions that improve the speed and quality of your meetings at every step along the way.

## Setup

### ○ Anywhere you choose !

The board is 40% thinner than previous models, and the legs have been designed to take up minimal space.

### ○ Easy to move

20% lighter than previous models, making it easy for anybody to move.

## Other Features

### ○ No special software

The board is accessible via a web browser and all board settings (file format, date settings, resolution etc.) and security settings can be configured in a browser on your computer. You don't need to install special software. The board is compatible with all operating systems.

\*The settings can also be changed using the board's control panel.

### ○ Save energy

Previous boards have used 40W during operation and 5W during stand-by. The new series from PLUS uses only 12W during operation and 3W during stand-by.

You won't find a more energy-efficient board than this!

\*Measurement conditions: Used at three one-hour meetings per day. Two screens were scanned at each meeting. The standard "S" model was used.

## Write

### ○ Smooth-sliding sheet for uninterrupted discussions

Slide the sheet with your hand to make more room to write without interrupting your discussions.

### ○ Magnet-attachable surface

Use magnets to stick drawings and the like onto the board. (This is the first sheet-type Copyboard with this function.)

## Scan

### ○ One-touch operation

Simple—designed control panel allows you to operate it intuitively.

### ○ Quieter

The scan noise has been reduced from 50dB to 43dB. No more noisy scanning disrupting your discussion or train of thought.

\*As a point of reference, a quiet office is 50dB and the average library is 40dB.

### ○ Faster scan time

Color scanning now takes only 15 seconds—35% faster than previous models.

### ○ Erase reminder function

You can set the Copyboard to scroll through the sheet when you turn it off—no more forgetting to erase.

\*This feature is set to "off" as the factory default.

## Save

### ○ Save directly to your computer

With a USB cable connection, save your information straight to your computer. No special software is needed, the board is compatible with all operating systems, and only one page of data is saved for added security. When you remove the USB cable, your data will be automatically erased from the board's memory.

### ○ Front-facing USB port

The USB port is front-facing making it easy to insert your USB memory stick. At a glance you can see which way to insert the USB memory stick. A 1GB memory stick will hold around 4800 pages.

### ○ Security functions

Configure the security settings in the browser. You can disable the ability to save to a USB drive as well as disable the transferring of image files to a computer.

## Print

### ○ Detailed print format settings

The browser enables easy configuration of settings such as paper size and date and even allows you to add a header or footer.

### ○ Disable color printing

You can disable color printing mode if black and white only is preferred.

COPYBOARD  
**M-18**  
SERIES

**Standard Model**

The stanard model of the new PLUS Copyboard has two writing panels, and possesses a clean design that compliments any office space.

## Easy to move

This new Copyboard is the lightest model in the industry, making it easy for anybody to move it to a meeting location.

## 40% slimmer

This new Copyboard is only 72mm /2.8" – 42% slimmer than previous models (125mm/5").

## Two board sizes

Choose the Wide model if you want extra room or the Standard model if you'd like something more compact. With two sizes, there's something to suit everybody's office or meeting style.

## A simpler control panel

The simple-designed control panel allows you to operate the board intuitively.

- ① Display Window
- ② Number of Copies
- ③ Color Print button
- ④ Monochrome Print button
- ⑤ Save to USB memory stick button
- ⑥ Scroll/Stop button
- ⑦ Power button
- ⑧ Status /Error notification
