DESK CUBICLES

With so many ways to customise these cubicles, Cubex can create flexible workspaces to suit any space and colour requirements.

CUBEX
INDIVIDUAL ACOUSTIC CUBICLE

Cubex Individual Acoustic Cubicle

Cubex is a portable 'U' shaped acoustic cubicle that provides physical separation. This personal barrier is composed of three Hush acoustic panels and is easy to assemble with its bracket free integrated interlocking system.

Cubex comes in single or double and can be freestanding or desk mounted with brackets.

It can also be easily configured in Z shape to create back to back workspaces.

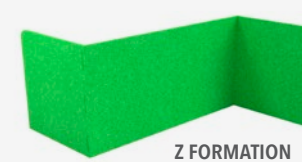

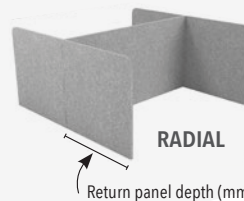

The standard size is 1200mm wide with 600mm deep side panels. The height is 600mm but custom sizing is available.

The return panels are offered as either the radial or curvature option.

Cubex is available in a variety of colours and also provides the option of mixing different panel colours.

FREESTANDING ACOUSTIC OFFICE BOOTH

Meet today's need of evolving and flexible education and work spaces with these freestanding acoustic booths

Hush Pod – Acoustic Office Booth

Hush Pods provide private and flexible acoustic workspaces to meet the demand of today's evolving education and office workplaces.

Lack of privacy and noise are two of the biggest gripes of the open plan office. Our range of Hush Pod booths offer a refuge from everyday distractions and assists with individual focused work, telephone or video calls.

Designed to meet the needs of the modern work space, they fit perfectly into any office or education environment.

Available as a single or double sided booth, the Hush Pod can be made in any mixture of the Hush colours, including multicoloured panels.

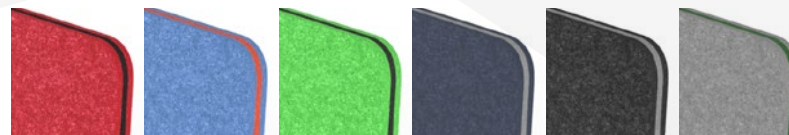

Hush Pods come with a standard white Laminex worktop but can be customised to any of the standard Laminex colours.

If you require, a cable access hole can be inserted on either side.

- Custom made to your requirements in Melbourne Australia
- No bolts or fixings, assembles in less than 10 minutes with just a screw driver
- 27mm acoustic Hush panels are available in a variety of colours - including multicolour
- Environmentally friendly - minimum of 60% post-consumer recycled material
- Strong, rigid and sturdy yet lightweight
- Flat pack design allows for easy transportation

DESIGN YOUR WALL

ETCHED GEOMETRIC ACOUSTIC PANELS

Individualise and transform any Hush product to perfectly complement any work environment.

Hush Tessellate Etched Geometric Acoustic Panels

Hush Tessellate combines the art of geometric shapes with the visual effect of colour and light. The subtle shadows cast within the patterns is an important element that further extends the design possibilities.

These elements come together to provide a striking and varied effect depending on the environment they are used in.

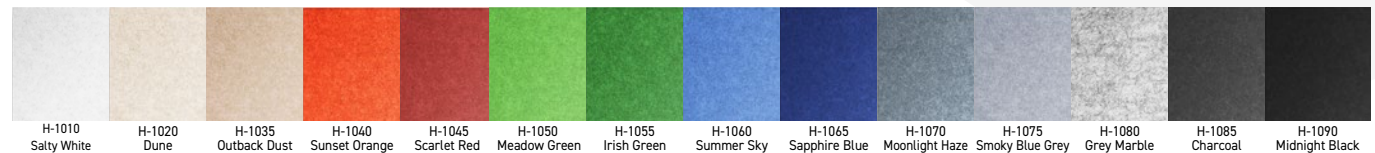

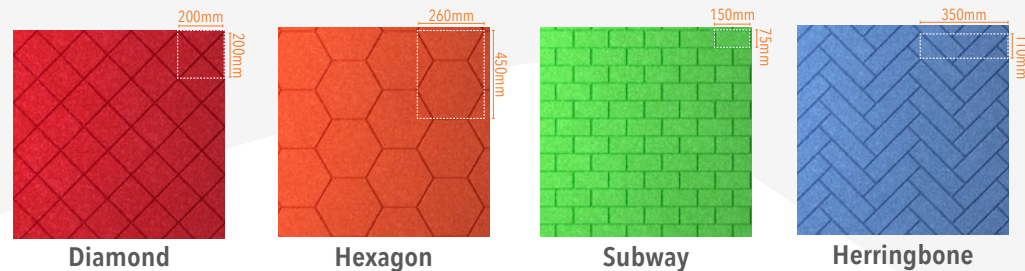

Hush Tessellate is achieved by cutting an angled wedge out of the Hush acoustic panel.

With four distinct and interesting patterns available it provides the opportunity to transform and individualise any of our Hush products to complement and enhance the work environment.

- Custom made in either 9mm or 18mm wall panels or desk screens
- 18mm panels can be single or double sided
- Pattern cut-out is 13mm wide, 6mm deep 45° angled wedge
- Panels up to 2400 x 1200mm in all colours while panels up to 2720 x 1200mm in Charcoal or Grey Marble only
- Hush is available in 14 contemporary colours
- Four standard geometric pattern designs
- Environmentally friendly containing minimum of 60% post-consumer recycled material
- Strong, rigid, and sturdy yet lightweight

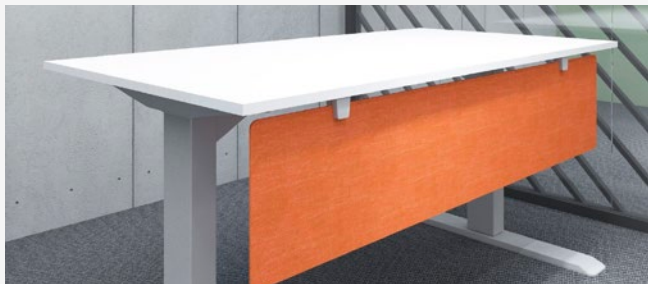

OPTIONS: Diamond, Hexagon, Subway and Herringbone

BRACKET RANGE

Keep your screens in place with sleek brackets that screw or clamp onto your desk.

Hush Brackets – Top, Side and Divided Mount

What is the difference between Top, Side and Divided Mount Hush Brackets?

The Top Mount Hush Bracket is a flat bottom bracket which must be screwed down onto the worktop.

Side and divided mount screen brackets fix to the underside of the desk.

Compatible with privacy screens of thickness between 6–24mm.

Hush Brackets are available in White, Black or Silver. Hush Deluxe are available in White or Black.

- Quick to install in 3 easy steps
- Made from Aluminium, light and sturdy
- Available in White, Black or Silver

HUSH	HUSH DELUXE	
		TOP MOUNT: A pair of lightweight surface mount brackets for mounting privacy screens or modesty panels on or under the desktop. Top Mount brackets screw into the desktop.
		SIDE MOUNT: A pair of lightweight side mount brackets for mounting privacy screens onto the desktop. Side Mount brackets clamp to the edge and underside of the desktop, and do not cause any cosmetic damage to the top of the desk.
		DIVIDED MOUNT: A pair of lightweight brackets with a double-sided clamp for mounting privacy screens / dividers between two desktops. Screen sits flush to one side of the top and off-set to the other top.
		PROJECT 27: Project 27 Hush Brackets are a top mount bracket designed to accommodate larger panels – suitable for panels with a thickness between 20mm and 35mm. The top mount Hush Bracket is a flat bottom bracket which must be screwed down to the desk.
